# Our heritage

Foglizzo is an Italian company that for over three generations has been producing high quality leather for clients requiring exclusivity and customisation in a wide variety of applications. We are driven by a culture of excellence with unrivalled artisanal and technical skills, and a profound understanding of our customers' needs.

Founded in Turin in 1921, initially as a supplier of high-quality leather for furniture and fashion, Foglizzo has diversified in the ensuing decades. Our products are now delivered worldwide, but we resolutely remain a family company and although we still supply premium automotive leather we are also a leading player in the aviation, yachting, hospitality, residential and contract sectors.

Whatever the application, we are able to meet our costumers' demand for leather creations in which quality, creativity and authenticity are vital ingredients.

2021 has been our centenary year. Many of the traditional handcrafted processes we use to create our leathers are much the same as they were 100 years ago, but we aim to connect the past, present and future by embracing advanced technologies to achieve new designs and finishes once thought impossible. Our century-old heritage continues to thrive today thanks to the efforts of a young, talented team of craftsmen and women who embrace the use of avant-garde technologies to produce beautiful, innovative and contemporary solutions.
